SKILLS

Power BI

Microsoft PowerPoint

JavaScript

Microsoft Office

Microsoft Word

Python Programming ●●●●●

Develops scalable applications and scripts using Python for automation and data analysis tasks.

HTML5 & CSS3 ●●●●●

Creates visually appealing and accessible web pages with modern HTML5 and CSS3 standards.

SQL ●●●●●

Designs, queries, and optimizes relational databases using SQL for data integrity and performance.

Data Visualization ●●●●●

Translates complex data sets into actionable insights and visual dashboards using tools like Tableau or Power BI.

K Harini

FRESHER

01 Summary

Highly motivated data analyst with a M.Sc in Artificial Intelligence and Data Science and proven skills in Python, Power BI, and MySQL. Experienced in developing data-driven solutions, including performance prediction models and interactive dashboards. Proficient in web development using HTML, CSS, JavaScript, and PHP, with database management expertise.

02 Experience

Intern

May 2026 — June 2026

THE MIND IT SOFTWARE

Trichy

- Worked on a project titled 'Smart Student Performance Prediction and Analysis Dashboard.'
- Analyzed student academic data using Data Analytics techniques.
- Worked with student datasets including attendance, internal marks, assignment scores, and semester marks.
- Used Python and Pandas for data cleaning, preprocessing, and analysis.
- Analyzed student performance, identified toppers, classified grades, and generated academic reports.
- Implemented a Machine Learning model using Linear Regression to predict semester marks.
- Used MySQL to store and manage student records and executed SQL queries.
- Developed an interactive Power BI dashboard to visualize results with KPI cards, charts, tables, and filters.

Web Development Intern

December 2024 — March 2025

DROBOSPACEX AUTOMATION PVT. LTD

- Developed a web application using HTML, CSS, and JavaScript for front-end design.
- Built dynamic features with PHP and integrated MySQL for database management.
- Worked on user authentication, data handling, and form validation.
- Improved website performance and responsiveness.
- Collaborated with a team to debug and optimize code for better functionality.

03 Projects

Smart Student Performance Prediction and Analysis Dashboard

May 2026 — June 2026

Music Performance

Perform in community ensembles, contributing to school events and supporting musical learning initiatives.

Photography

Provide visual documentation for school events and educational materials.

App Development

Design, code, and maintain personal mobile and web applications to experiment with emerging technologies.

Data Visualization

Produce interactive charts and dashboards to present complex data insights clearly to both technical and non-technical audiences.

- Developed a Data Analytics project to analyze and monitor student academic performance.
- Used student data such as attendance, internal marks, assignment scores, and semester examination marks.
- Python was used for data preprocessing, analysis, and machine learning implementation.
- Performed attendance analysis, grade classification, topper identification, and department-wise performance analysis using Pandas and other Python libraries.
- Developed a Linear Regression Machine Learning model to predict student semester marks.
- Used MySQL for efficient storage and management of student records.
- Executed SQL queries to retrieve important information and generate reports.
- Visualized data with a Power BI dashboard.

Technologies Used: Python Pandas MySQL Power BI

Restaurant Website using PHP & MySQL

December 2024 — March 2025

- Developed a dynamic restaurant website allowing customers to browse menus, place online orders, and make reservations.
- Created an intuitive user interface and an admin panel for managing menu items, orders, and customer data.
- User Panel features: view menu items with images, descriptions, prices; place food orders with secure checkout; make table reservations; contact restaurant via inquiry form.
- Admin Panel features: manage menu items (add, edit, delete); view and manage orders; handle table reservations; update restaurant details.
- Designed front-end using HTML, CSS, JavaScript, and Bootstrap.
- Implemented PHP and MySQL for back-end functionality and database management.
- Developed secure login and authentication.

Technologies Used: PHP MySQL HTML CSS JavaScript Bootstrap

04 Education

M.Sc (Artificial Intelligence and Data Science)

July 2025 — Present

Alagappa University

Karaikudi

Score: 82%

Proficient in machine learning, deep learning, and statistical modeling techniques. Developed data analysis and visualization skills using Python and relevant libraries. Strong foundation in AI principles and data-driven problem-solving methodologies. Applied knowledge through research projects.

○ B.Sc (Information Technology)

June 2022 — April 2025

Dr Umayal Ramanathan College for Women, Karaikudi

Karaikudi

Score: 89.6%

Proficient in data structures, algorithms, and software development principles. Strong foundation in database management systems and networking concepts. Developed analytical and problem-solving skills through practical application of IT solutions. Demonstrated competency in system analysis and design methodologies.

○ Class XII

June 2021 — April 2022

Tamil Nadu State Board

Tamil Nadu

Score: 73%

Developed a strong foundation in core subjects including mathematics, physics, chemistry, and computer science and problem-solving skills through rigorous coursework and examinations. Prepared for higher education and advanced studies.

○ Class X

June 2019 — April 2020

Tamil Nadu State Board

Tamil Nadu

Score: 70%

Completed Class X with a foundational understanding of core academic subjects. Developed critical thinking, problem-solving, and communication skills through a rigorous curriculum and assessments.

05 Certifications

○ Junior Grade Typewriting English 30 Words Per Minute

Ganesh Typewriting Institute

Devakottai

Proficient in typing at 30 WPM with accuracy. Developed foundational keyboarding skills and speed. Demonstrated ability to transcribe documents efficiently and effectively. Equipped with essential administrative support competencies. Focused on precision and timely completion of typing tasks.

06 Achievements

○ Participated in business ideas conducted by College

Alagappa University

Participated in business ideas conducted by College in M.Sc
